Mayor Yates opened the 2025 budget workshop #2 stating there would be discussion only with no votes taken. The meeting focused on the General budget.

The budget workshop began with council setting the next workshop for July 21st after the Board of Works meeting.

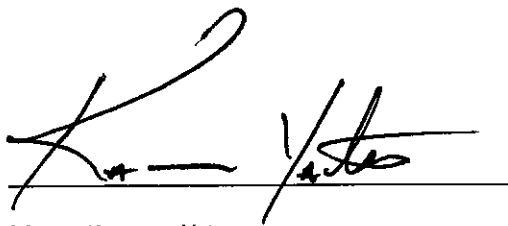

The council continued with a review of the general budget recommendations with several cuts to specific line items and additions to other line items. Maintenance fund/software discussion for the police department was discussed. Chief Mullin stated that the computer software would be able to cover 3 laptops for about \$2,000 each. He also stated that the department has applied for a grant that would assist in paying for \$9000.00 for the flock cameras.

The council asked about insurance increases for staff. Clerk/Treasurer Price stated that she would have the increased numbers at the next workshop so the council would be able to budget for the insurance line item.

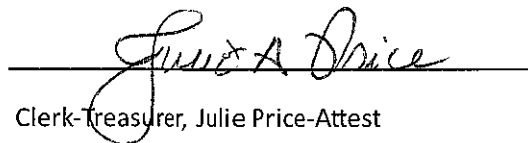

The council agreed to hold a third workshop following the July 21st common council meeting to work on and discuss the budget further.
